

Stormwater Master Plan Project Begins in Alsip near the Cal-Sag Channel

The Metropolitan Water Reclamation District of Greater Chicago has begun work on a stormwater master plan project designed to identify solutions to flooding in the Little Calumet River/Cal-Sag Channel Drainage Area. The Village of Alsip is included in the project area. Visit the project website to learn more about the project and to complete an online flooding/drainage questionnaire.

You can also submit questions by calling 630-473-7975 or sending an email to info@CalSagStormwaterPlan.org.

We need your input...
